Index to *Electronic Manufacturing* (Formerly ELECTRI•ONICS) 1987 Feature Articles

The following is an index of feature articles which appeared during 1987. The features are listed in chronological order under category subheads by title and page number. Also listed are titles and topics of editorials and opinion features.

Circuit/Assembly	Page	Issue
Overview of Robotics for Printed Wiring Board Assembly	40	January
How to Evaluate Handling Equipment for PWB Assembly Applications — Part 1	44	January
How to Evaluate Handling Equipment for PWB Assembly Applications — Part 2	25	February
Solving PWB Soldering Problems to Improve Quality	29	February
Reducing PWB Soldering Problems	35	February
Hints for Better Desoldering	36	February
How to Select Adhesive Film for Heat Sink Attachment to PWB's	48	March
How to Prevent Thermal Shock Using Low Temperature Soldering	32	April
How to Eliminate Wavesoldering Defects	35	April
Flux Selection for PWB Wavesoldering	37	April
Examination of Solvent Cleaning for Printed Wiring Board Applications	11	May
An Assessment of Solvent Cleaning Performance and Safety	16	May
Evaluation of PWB Cleaning Issues — Part 1	20	May
Evaluation of PWB Cleaning Issues — Part 2	38	June
Tools and Techniques for Rework Station Set-up and Repair	12	July
Reducing Waste with Proper PWB Rework/Repair Station Set-up	19	July
An Overview of PWB Inspection/ Rework Methods	23	July
Electrostatic Discharge: An Examination of Concerns, Issues, and Solutions — Part 1	27	July
Considerations for Selecting, Applying PWB Conformal Coatings	11	August
Tips for Choosing, Operating Component Insertion Equipment	13	August
Improving Soldering to Meet Critical WS 6536 Specifications	19	August
Electrostatic Discharge: An Examination of Concerns, Issues, and Solutions — Part 2	31	August
Evaluating Label Materials for PWB Bar Coding — Part 1	12	October
How to Specify Bar Code Labels for Electronic Applications — Part 1	15	October
How to Specify Bar Code Labels for Electronic Applications — Part 2	28	November
Evaluating Label Materials for PWB Bar Coding — Part 2	35	November
Lead Trimming Modifications Solve PWB Assembly Problems	51	November

Circuit/Design	Page	Issue
Considerations for Selecting Computer Aided Design Systems for Printed Wiring Boards	19	February
Survey of PWB Trace Routing Technologies — Part 1	21	August
How to Evaluate CAE Equipment for PWB Layout — Part 1	25	August
Survey of PWB Trace Routing Technologies — Part 2	42	September
How to Evaluate CAE Equipment for PWB Layout — Part 2	51	September
How Laser Photoplotting Assists Computer Aided Design Groups	19	October
An Overview of PWB Phototool Preparation — Part 1	23	October
Survey of PWB Trace Routing Technologies — Part 2	26	October
Processing Method for Improving Throughput, Quality of PWB Production Masters	25	November
An Overview of PWB Phototool Preparation — Part 2	49	November

Circuit/Fabrication	Page	Issue
Examination of Factors Influencing Additive/Subtractive Circuit Fabrication — Part 3	19	January
Examination of Waterjet Cutting Systems for PWB Panel Separation	23	January
How PWB Depaneling Techniques Aid Multiple Board Manufacturing	27	January
Selecting and Using Routing	37	January

Circuit/Fabrication	Page	Issue
Examination of Factors Influencing Additive/Subtractive Circuit Fabrication — Part 3	19	January
Examination of Waterjet Cutting Systems for PWB Panel Separation	23	January
How PWB Depaneling Techniques Aid Multiple Board Manufacturing	27	January
Selecting and Using Routing	37	January

Equipment for Panel Separation		
Automating Plating Systems for PWB Fabrication — Part 2	47	January
Oxide Selection Tips for Multilayer PWB Fabrication	19	March
How to Select, Maintain, Operate Immersion Heaters	28	March
Solving Waste Disposal Problems Associated with Printed Wiring Board Fabrication — Part 1	50	March
Controlling Material Shift in Fine Line PWB Fabrication	11	April
Solving Problems in Hot Air Soldering Leveling	20	April
Common Problems with Hot Air Solder Leveling — Part 1	22	April
How to Evaluate Hot Air Solder Leveling Services	24	April
An Overview of Hot Air Solder Leveling	27	April
Solving Waste Disposal Problems Associated with Printed Wiring Board Fabrication — Part 2	30	April
Common Problems with Hot Air Solder Leveling — Part 2	22	May
Choosing a Photoplotter for Generating PWB Artwork	24	May
Features to Compare When Evaluating PWB Computer Aided Manufacturing Systems	30	May
How to Implement PWB Engineering Change Orders with a Wireless, Dry PTF Process	35	May
Using Fluoropolymer Substrates for High Speed, Digital Circuits	28	June
Trends in PWB Laminate Performance	33	June
Implementing a CIM System for Multilayer PWB Fabrication	31	July
Using Automated Soldering for Sensitive Electronic Applications	12	September
Choosing a Solder Mask for High Density PWB's	15	September
How to Handle, Apply Dry Film Solder Masks	21	September
Using Subtractive Methods for Multilayer Board Fabrication	9	November
An Overview of PWB Panelization Stations, Plotters	15	December
How to Improve PWB Wavesoldering	19	December
Overview of 3-D Molded Interconnection Processes and Markets	22	December

Circuit/Testing	**Page**	**Issue**
How to Use PWB Fault Prevention to Improve Manufacturing Yields	55	January
Using Computer Aided Testing for Printed Wiring Board Applications	39	February
The Role of Interface Buses in Printed Wiring Board Testing	55	February
Test Fixturing Options for Printed Circuit Boards	35	March
How to Select Spring Probes for Testing PWB's — Part 1	39	March
Fixturing Methods for Testing High Density PWB's — Part 1	41	March
How to Select Spring Probes for Testing PWB's — Part 2	16	April
Fixturing Methods for Testing High Density PWB's — Part 2	28	April
Tips for Burn-In Oven Selection	57	May
An Overview of Burn-In Testing	59	May
Tracking the Evolution of AOI	12	June
Resolving PWB Inspection Problems with AOI — Part 1	15	June
Advances in AOI Equipment Address Needs, Increase Throughput	21	June
How to Select an AOI System — Part 1	23	June
Considerations for Using PWB Visual Inspection — Part 1	35	June
Resolving PWB Inspection Problems with AOI — Part 2	35	July
Considerations for Using PWB Visual Inspection — Part 2	37	July
How to Select an AOI System — Part 2	39	July
How to Select an AOI System — Part 3	27	August
Factors Involved in Choosing an Automatic Inspection System	25	September
Applying Quality Control to Automatic Test Processes	28	September
Bare Board Test Methods for High Density Board Designs — Part 1	31	September
X-ray Inspection Meets Increased PWB Throughput, Density Challenge — Part 1	36	October
Bare Board Test Methods for High Density Board Designs — Part 2	39	October
Automating PWB Cross-Sectional Analysis to Meet Military Requirements	14	November
X-ray Inspection Meets Increased PWB Throughput, Density Challenge — Part 2	46	November
How to Test Flexural Fatigue, Endurance, Ductility of Flexible PWB's	13	December

Electronic/Assembly	**Page**	**Issue**
Future Developments in Sockets and IC Packages	39	June
Trends in IC Socket Design	41	June
Electrostatic Discharge: An Examination of Concerns, Issues, and Solutions — Part 1	27	July
How Electronic Manufacturers Used Silicone Elastomers to Solve Difficult Coating Problems	9	August
Electrostatic Discharge: An Examination of Concerns, Issues, and Solutions — Part 2	31	August
Considerations for Selecting Electronic Cabinets — Part 1	45	September
Considerations for Selecting Electronic Cabinets — Part 2	30	October

Electronic/Testing	**Page**	**Issue**
Tips for Burn-In Oven Selection	57	May
An Overview of Burn-In Testing	59	May
Using Perfluorinated Electronic Liquids for Component Testing	16	November

Miscellaneous	**Page**	**Issue**
NEPCON West '87	11	January
Forecast 1987 — Part 2	13	January
Index to ELECTRI•ONICS 1986 Feature Articles	50	January
NEPCON West '87 Preview	12	February
IPC Spring Meeting Preview:	11	March

Format Expanded for Semi-Annual Meeting		
Work-Related Educational Program Survey	33	March
NEPCON East Preview: Show, Conferences Feature PWB Manufacturing	27	May
ISHM Preview: ISHM '87 Symposium to Highlight Future of Hybrid Microelectronics	14	September
IPC Fall Meeting Preview: Solderability Test Results to Highlight Semi-Annual IPC Meeting	19	September
EEIC/ICWA Preview: Conference/ Exposition to Feature Technical Presentations and Exhibits	52	September
Military Electronic Systems Packaging to be Highlighted at the IEPS Conference	11	October
Connector and Interconnection Symposium Adds Sessions About Marketing, Purchasing	38	October
JIT, Superconductivity to be Featured Topics at Wescon/87	20	November
Forecast 1988	9	December

Special Reference Resources	**Page**	**Issue**
PWB Encapsulants and Coatings Specification Guide	61	January
Printed Wiring Board Fabrication Technical Reports	46	February
PWB Drilling, Routing, and Cutting Tools, Equipment, and Accessories Specification Guide	22	March
Packaging, Enclosures, Fans, and Heat Sinks: Technical Reports	38	April
Electrostatic Discharge Control/ Elimination Product Specification Guide	37	May
Testing Technical Reports	34	August
Computer Aided Design/ Engineering Hardware and Software Guide	36	September
Connections and Terminations Technical Reports	41	October
Packaging and Assembly Materials Specification Guide	38	November
Electrostatic Discharge (ESD) Control Technical Reports	27	December

Editorials	**Page**	**Issue**

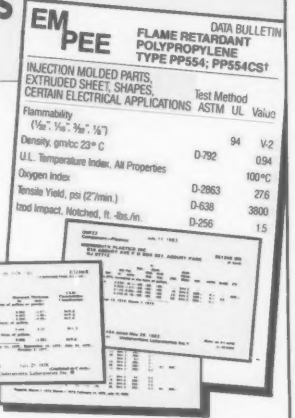
For the **FLAME RETARDANCY**
You Require...
In the **COPOLYMER** You Want...
With the **LOW DENSITY** You Need...
In the **PRODUCTS**
You Make...



Here's a U.L. 94 V-2 Polypropylene You Can Trust...
EMPEE® PP554; 554 CS†
†Copper Stabilized

Monmouth Plastics, inc.
A Cookson Group Company

Call Dan Siegel, Product Manager at 1-800-526-2820 TOLL-FREE* for specific application details or write:

814 Asbury Avenue • P.O. Box 921 • Asbury Park, NJ 07712
(201) 775-5100 *New Jersey Dial Direct

Mark No. 13 on Inquiry Card

Arifaxx

80386 SYSTEM

- Compaq Compatible
- Intel 80386 Micro Processor
- 16 Mega-Hz CPU Clock Speed (16, 8, 4, 11)
- 1 MB Ram Standard
- Maximum 2 MB On Board
- Maxi-Switch Keyboard
- (1) 1.2 MB Floppy Drive
- (1) 360K Floppy Drive
- 40MB Hard Disk Drive
- VGA, EGA, CGA, MDA, HGA Graphics Multi-Synch Card
- Maximum Addressable Physical Memory 4 gigabytes
- Maximum Virtual Memory 64 terabytes
- MS DOS 3.2
- GW Basic & Operational Manual

1 Year Parts & Labor Warranty
Monitor Not Included . . . $3,595

Purchase, Lease, or Rent. Make Checks Payable To:

Arifaxx
17819 Lysander Drive
Carson, CA 90746
213-532-3400

Will Ship C.O.D. with 20% deposit and company purchase order
Leasing Available to New Businesses

Mark No. 2 on Inquiry Card
